

# Have your say on mineral extraction

## We would like your comments on the Minerals Core Strategy

- A strategy for quarrying stone, sand and gravel and other minerals across Dorset
- Proposals to guide minerals development over the next 20 years

## We would like your thoughts on:

**Ball clay** – two areas of search are identified in Purbeck

**Sand and gravel** – the core strategy shows the resource areas where sand and gravel is found (excluding major constraints) – future quarries will be located within these areas (subject to detailed assessments)

**Purbeck Stone** – continued Purbeck Stone working is supported

**Portland Stone** – areas of opportunity for underground mining are identified on Portland

You can comment between:

**Friday 15 July and Friday 9 September 2011**

You can view the revised draft strategy and make comments at:  
**[www.dorsetforyou.com/mcs](http://www.dorsetforyou.com/mcs)**

**Or hard copies can be viewed at:**

- Dorset County Council (County Hall)
- Bournemouth Borough Council (Town Hall)
- Borough of Poole (Civic Centre)
- Planning receptions of all district and borough councils in Dorset
- Libraries throughout Bournemouth, Dorset and Poole
